SUMMARY

Software Engineering graduate with a dedicated focus on building seamless user experiences and robust web applications. Sole founder and Lead Developer of Project Athar, a TÜBİTAK-backed platform built on modern front-end frameworks. Highly organized with a strong foundation in project management and international operations. Proven ability to bridge the gap between graphical design and technical implementation, delivering scalable, user-centric solutions.

WORK EXPERIENCE

Intern – Young Business Hub Department Mar 2026 – Present
Islamic Cooperation Youth Fourm (ICYF), Istanbul, Turkey

- Apply structured project management principles to handle cross-cultural communications and international logistics.
- Draft, review, and refine professional organizational documentation in a high-standards bilingual environment.

Software Engineering Intern Jan 2026 – Feb 2026
EVA Team Altınbaş University, Istanbul, Turkey

- Completed a 20-day intensive technical internship focused on autonomous robotic systems.
- Authored comprehensive technical documentation outlining system architecture and simulation workflows, ensuring clear communication of complex processes.

Front-End Developer Trainee June 2020 – Aug 2020
Nilogy Company , Khartoum, Sudan

- Developed, designed, and maintained functional user interfaces using HTML, CSS, and JavaScript.
- Collaborated directly with clients to translate their visual needs and requirements into technical front-end realities.
- Managed multiple concurrent projects, adhering to strict deadlines and project management workflows.

LANGUAGES

Arabic: Native English: Fluent Turkish: Beginner

PROJECT SPOTLIGHT: TECHNOLOGY FOR IMPACT

Founder & Lead Developer | Project Athar (Crisis Response Platform backed by TÜBİTAK)
Tech Stack: React, TypeScript, Firebase, Tailwind CSS, Llama-3 API

- Architected and developed a real-time crisis mobilization ecosystem independently, securing official TÜBİTAK research funding.
- Bridged complex UI/UX requirements into technical reality by utilizing React and Tailwind CSS to build an intuitive, fast-rendering interface.
- Engineered a 4-tier verification pipeline using live NoSQL geospatial queries and optimized front-end data streams via WebSockets (onSnapshot) for zero-latency updates.

GLOBAL LEADERSHIP & VOLUNTEER EXPERIENCE

Liaison Officer (Protocol Team): Alsharq 9th Conference, Istanbul

- Managed rapid communication and operational logistics for high-level delegates, demonstrating strong cross-functional stakeholder management.

International Delegate: 7th ICYF International Volunteer Camp, Antalya

- Collaborated with tech and youth leaders from 50+ countries to design and outline community resilience frameworks.

Volunteer finance assistant: Takaful Charitable Organization

- Developed strong organizational and time-management skills while managing (A Day with an Orphan) project and deadline.

TECHNICAL SKILLS

- Programming Languages: JavaScript, TypeScript, SQL, Python
- Web Frameworks & Libraries: React, Tailwind CSS, Bootstrap, HTML, CSS
- Databases & Cloud Services: PostgreSQL, MongoDB, Firebase (Firestore)
- Tools & Environments: VS Code, Git/GitHub, Ubuntu, AI Development Tools
- Core Competencies: Front-End Development, UI/UX Implementation, Project Management, API Integration, Technical Documentation

---

EDUCATION

Bachelor of Science in Software Engineering 2022 - 2026
Altinbaş University, Istanbul, Turkey

Bachelor of Science in Information Technology 2016 - (Incomplete)
University of Khartoum, Khartoum, Sudan

COURSES & CERTIFICATES

- Core Istanbul Software Development Bootcamp (Intensive 7-week AI & Software Training)
- Python Data Structures - University of Michigan
- Python Training Certificate - Frontier Tech Leaders (FTL) Sudan
- Teacher Training Certificate (TTC) - WAVES Training Center
- Selected Participant - ICYF Youth Leadership Programs
